Whispers from The Brighter World
A Fourth Revelation

Monday, November 13, 2000 - 8:00 a.m.

Yes, my daughter, there is a hierarchy with great plans to save the world. This objective is their concern and their priority for this beginning century.

"We are all working towards the building of a new order where real values should take their place. That is why we insist so much on asking you to work for your own transformation."Light begins to peep through on the horizon, but the task is rough. All forces of good must unite to prepare for the golden age that will be established in future centuries.

"You are not isolated and without recourse.

"By working under our guidance, you join in a liberating and redeeming movement.

"You have good reasons for rejoicing. You will not see, while on this Earth, the outcome of this great intention but you are contributing to its achievement.

"You can inform your closest circle about this vision and the message you have received. Why wouldn't this figure come toward you? He is not the first and will not be the last. You have succeeded in reaching a special position to serve as our spokeswoman. Your mission is being completed as planned, that is all."
