Whispers from The Brighter World
A Fourth Revelation

Yes, there is a hierarchy of beings of light, as you call them, who help humanity and govern the subtle universe. In their own context, they play a predominant role.

"Every spiritual way is represented and structured so that at all levels, it is monitored at different stages.

"We all work together, for the good of existing worlds. The Earth represents a worry, but it is not the only planet that poses problems for us in its evolutionary cycle.

"Do not think about this hierarchy. It is good you know that it exists, but it is not really as some people depict it. You should know that, there also, each one does what is incumbent on them; that all this organisation operates as perfectly tuned wheels; and that love, this subtle energy, enlivens it intensively. The discord that characterises Earthmen, even when they are on the same side, does not exist in this system.

"Do not be concerned about this organisation; it is what cares about you as a person and as a group in which you evolve. It works towards creating universal peace. That is all you need to know."
