Whispers from The Brighter World
A Fourth Revelation

*Friday, November 24, 2000 - 10:00 a.m.*

*The ambient noise does not matter, internalise yourself and our contact will not be affected.*

*"It is good for you to reach this state, whatever the situation. That is the best practice you can have. Your channeling capacities are important, but it is necessary to maintain them.*

*"You do not like your character to be put to the fore and yet, you are not a machine. It is normal to take stock from time to time, to enlighten readers on this means of communication.*

*"Do your practice well, do not neglect any aspect thereof. It is the best way to prepare for our contacts. They are important for you as well as what results from them.*

*"We must handle the channel carefully and make sure that it continues to assume its role as long as possible. It is not desirable that you keep this message to yourself. Stop thinking that what concerns you is uninteresting. This modesty does you credit, but here again, it is necessary to review your position. You finally succeeded in not having feelings of self-doubt; you should therefore make an effort for what we have just mentioned and all will be well."*
