Whispers from The Brighter World
A Fourth Revelation

Monday, December 4, 2000 - 10:00 a.m.

Never stop singing this divine love, and living it in you. It is the sesame which opens doors. Acting like that compensates for many failures.

"Love embellishes everything. It can transform the most arid hearts; it surrounds them, encloses them, and ends up submerging them. Nothing resists its vibratory power.

"'True lovers' are recognisable: they have depth in their eyes, a special sparkle, and suns are reflected there which illuminate their look.

"Call love constantly. It can array the most ordinary being with magnificence. That very richness is not granted to everyone; it is innate or received by grace. This divine heritage is by far the most important thing.

"Love modifies the vibration of the human body by making each one of its cells vibrate differently.

"Loving is to have in the heart a treasure, a unique force, which transforms and lights up what surrounds it.

"Excel in this vision of love and in its application. It will propel you to unsuspected heights, carried away by your own success."
