Whispers from The Brighter World
A Fourth Revelation

Monday, December 11, 2000 - 8:00 a.m.

You are making progress, you advance and that is all that counts. I already told you: perfection cannot be achieved in a day. You would be the only one to perform such a feat.

"If you knew how we all struggled to reach the heights – yet the spiritual quest never ends. We focus on what is in the heart of human beings and we do not judge, unlike what they can do so well to others. We see the gem, the core that is in the gangue, and work it so that the splendour which is in the heart of the heart can emerge.

"We constantly resume this work, as you should do yourself, with tenacity. Sooner or later, the light will illuminate your way, that is the way it has to be. It is essential to take a new look at oneself. It is wise to regularly take stock and to decide on the major guidelines that go in the right direction, that is realisation.

"We do not ask anything unfeasible. All can be obtained, if one really wants it. So it will be for you, if that is your objective.

"You should summon up patience. Abnegation and love must guide your steps so that your eyes will open up to reality one day, and you will taste the ineffable nectar."
