Whispers from The Brighter World

A Fourth Revelation

*Sunday, December 24, 2000 - 10:00 a.m.*

*I told you rather often to change turns of phrases when necessary. We do not dictate these messages to you word for word. Sometimes you take them down under difficult conditions; therefore, without distorting their meaning you can amend if need be.*

*"The French language is not easy. When the Earth becomes a planet where harmony and peace reign, a universal language will be given to men.*

*"Humans and all the forms of life living here below will be able to communicate through a vibratory code.*

*"Currently, some small tribes, who are isolated and protected from the damaging effects of your civilisation, communicate that way.*

*"The thought transference is practised in certain highly spiritual places. These remarks will perplex more than one reader, but they are true.*

*"The true possibilities of the human being are not used. The enormous potential of its brain is not exploited, as it would be needed. Since the caveman, he has only gone a limited way.*

*"As the vibratory rate of the Earth rises, the resources of humans will develop and the current criteria of knowledge will be outdated.*

*"Some of your values will no longer prevail; they will be seen as out-of-date and puerile. There is yet a long way to go before reaching that stage; you will not live in that new era.*

*"All that we are doing is raising the veil, to let you catch a glimpse of what life will be on the Earth for future civilisations."*
