*Sunday, November 22, 1998 - 10:00 a.m.*

The Medium: "Babuji, I would like to be at your feet and remain there forever..."

*So, you do not want to serve me any more? You forgot all that I told you on the issue... Meditate again a little, clear your heart of its torments, we will resume afterwards."*

*(10:30 a.m.)*

*"Remember the 'star'; plunge into its light, you will find me there.*

*"One day, when you are with us, you will realize the narrowness of the views of humans. They believe they are so strong—all these 'scientists'. The evolution of the Earth, compared to other planets, is still in its infancy. In fact it is in its first tentative steps. But all that is devoid of interest, what matters is only the spiritual progress of the beings, including yours in particular. Don't lose hope, as is the case now. Don't make any hasty decision. Don't let yourself be influenced; find an immediate solution. Continue as much as possible to hold your small meetings. They are important for each one of you. We use each tool in a different way.*

*"Octave has done a good job; he is very sincere in his process, thank him."*

The Medium: "O Babuji..."

*"Yes, my child, we are here. Don't say that you are abandoned. You know well that it's nothing of the sort. Be strong and determined to progress further and further. At the ashram, also, we are advancing step by step; unity will be rebuilt gently. We bless you as well as your close relations."*

*Thursday, November 26, 1998 - 5:00 p.m.*

(In meditation.)

*One day, you will be detached from the problems of daily life. Your house continues to grow larger and more beautiful. Your friends are dependable and good elements for the Mission."*
