Whispers from The Brighter World
A Fourth Revelation

*Tuesday, January 23, 2001 - 10:00 a.m.*

*e will answer your question about what this kind of Love really is, which we mention so often. It is a powerful force that modifies all the vibratory structure when it is at its height; the starting point is at the level of the heart, which is like an engine stimulating the whole of cellular activity. Love is a happy, powerful and innovative state, which regenerates the subtle bodies of the entire being. It plays a particular role, which you do not detect. It links the creature with its Creator; science has no basic knowledge of this fact.*

*"The vibratory world, which is at the heart of all phenomena perceptible to man, is completely unknown to him. He talks about vibration, energy; he tries to work out the problem, but that world is too subtle and beyond his current knowledge. It is however the key of the enigma. It is like the air that you breathe and without which there would be no life.*

*"Love is the greatest force in the world, and you are not objectively aware of it. All this speech may seem fuzzy to you and not scientific. Science has blinkers and it gets entangled in ways of reasoning which limit it.*

*"Do not cross your bridges before you come to them; let the era of true knowledge happen, but that will not be in a hurry.*

*"When that force has actually appeared, the planet Earth will win acclaim."*
