Whispers from The Brighter World

Thursday, December 3, 1998 – 5:00 p.m.

(In meditation.)

You are a group within the group. A work is being done on each of you, who will know – when the time comes – what is to be done. I am very satisfied, remain in serenity. Do your practice well.

The Medium: Should I tell them all this, Babuji?

Why do you think I give you this message? Be blessed, my daughters. You are, yourself, like a luminous source that flows without your knowledge. It is not perceptible to all, but it reaches its goal – that's the main thing. Don't worry about your health problems.
