Meditate more; you will help us in the work we are doing on you. When will you understand this?

(10:30 a.m.)

Yes, my child, we are here. Remember what I said to you one day: "I want you to be like a pearl." My exhortations have not had any effect. Make the commitment to meditate more; we will be happy. Today is a day of grace on the Earth, be at peace. My message will be more serene so as not to worry your friends. But this is just a breath of the universe, that continues in the preordained order. Nothing can stop the course of time. Do not be fearful. The events on Earth are mere vicissitudes in the face of eternity; one day you will laugh about them. Be strong, do you not have faith, faith in God, in us, your Masters, who watch over each of you like a mother over her little ones? Be trusting, advance in surrender and love, and all will be well. In the coming events, France will not be the most affected, but economic repercussions will weaken the country. It will be necessary to face up to it; similar things have been seen in the past. The aim of these messages is to prepare you, not to frighten you. Fortify yourselves

through the practice, you, our aspirants, who have this good fortune. The world needs your prayers; work in this direction.

Blessings.
