Whispers from The Brighter World
A Fourth Revelation

Wednesday, February 14, 2001 - 10:00 a.m.

Believe me, my child; you only exploit part of your gifts. Given your health problems, you cannot afford to dissipate your energies by attending to your fellow man beyond what you are doing. Consider that what you are doing for us is of primary importance.

"As regards this century of obscurantism, in particular for all that relates to esotericism, some beings will have influenced it in various ways: by helping their sick brothers, by showing them a way which they were afraid to go through, or by putting at their disposal highly inspired writings aimed to provide them with knowledge. True values will reassert themselves in the future. Men of this time, whose existence is impoverished by a material facility which diverts them from the profound realities of life, miss treasures which would make their existence meaningful.

"It is necessary to go farther into excess to thereafter return to normality. The same applies to all areas. It is not easy to strike the right balance. Certain spiritual ways made it the principal dimension of their philosophy.

"Man will always find it difficult to adjust to these principles as excesses are a human characteristic."
