Whispers from The Brighter World
A Fourth Revelation

Do not rack your brains as you do, we accept you as you are. Isn't that the main thing? Perfection is not easy to reach. The way towards it is long and difficult. One has to constantly restart, mend one's ways and, also in that, accept oneself with humility. This challenge will end only when you have left this Earth. Elsewhere, another quest will start. It is endless; therefore do not lose heart.

"Keep your eyes focused on this luminous point you foresee, while trying to forget the shady areas; they are inevitable for all lives. Lead your own life as best you can by serving us with love. Nothing is simple for human beings, who, if they want to keep a close check on themselves, must permanently take a new look at themselves. The way to perfection is thorny. Wise men try to circumvent the thorns; that is to their merit.

"Advance in peace, but keep in mind this constant and essential self-control. Human nature is weak. One needs much inner force to overcome it. The main thing is to set an objective and to stick to it as best one can.

"The practice we recommend is the best help you can have. Be conscious of that and trust your Master, who helps you to reach the most significant stages of your spiritual life."
