Whispers from The Brighter World
A Fourth Revelation

You should not be amazed by our repetitions; they are intentional and necessary to man's understanding. By reverting several times to some topics, man ends up assimilating truths that emerge from our remarks.

"These repeated returns enable him to be influenced with those truths, even if at the beginning they seem insignificant. To put it in simple terms, they end up touching him in the depths of his being.

"Why are sacred writings indefinitely read time and again if that repetition was not critical? They are the food needed by spirits for their inner construction.

"Through our repetitions, we draw the attention of the reader, who, in some cases, ends up becoming aware of a reality which did not even cross his mind."
