Whispers from The Brighter World
A Fourth Revelation

Tell her, this beloved daughter, that time is precious and counted. It moves inexorably. Every elapsed day is a completed step towards an unfathomable future.

"You should know how to appreciate this passing day; it bears a lot, is rich and propels you toward your destiny. Your life is a treasure. It is precious, and it is a tool for you of which you do not imagine the importance.

"Be thankful for having to live these thrilling moments that enrich you beyond what you can imagine. What you are storing up is not a standard bank account; it is very particular.

"You manage it on your own, control movements of funds and monitor resultant bank charges. You guarantee your own wealth. It is only up to you to make sure that the final bank statement amazes you in the best way. You will not be able to hold anybody else responsible for your own overdrafts.

"You made a very good investment by subscribing to our method; it is very profitable.

"The close of the accounting period will be very satisfactory, if you reasonably follow the current transactions."
