Whispers from The Brighter World
A Fourth Revelation

Thursday, April 5, 2001 - 8:00 a.m.

Life on Earth is a brief step. You should not be affected by the vagaries of the journey.

"Rise up, as far as you can, towards other spheres. Clear your mind of the heaviness of this world, come and breathe the fresh air of the summits. Your heart needs to dream to survive, as well as impulses of love, poetry and beauty.

"Always go more deeply within, towards this immutable who lives in you. Be happy to have keys to open the doors of this sacred refuge.

"You have realised where the important thing was and you put aside enough time to foster relevant steps. Every day, you progress on the path. Sometimes sweet scents can be smelt and they encourage you, thus showing that your path is the right one and that it actually leads to the goal.

"Time, in this area also, does its work; it is creative. It is not easy, for you, to measure your progress, but it is real and noticeable.

"You are necessarily satisfied with this aspect of your life. When you take stock of it with the appropriate criteria, you will be amazed to assess the results of your work, your perseverance in seeking the Divine by giving it the place it deserves in your life."
