Whispers from The Brighter World
A Fourth Revelation

Saturday, April 21, 2001 - 10:00 a.m.

You can notice once again that according to another source (that is, this Christ-like message recorded in quite a special way), love is a universal concept. It is the driving force of the world. Being of a subtle and unique essence, it is impalpable yet manifests itself in spite of that in the entire creation. Having it in oneself is the most beautiful experience which a human being could go through. The vibrations of this world are dense, gross and testing for us. We must carry on regardless of that to come and express ourselves to you.

"Love's rule will end up being established on the Earth. This golden age will be preceded by many incidents. Nothing can be obtained easily. Life on the Earth, since the mists of time, went through multiple upheavals. Since the caveman, the spiritual state has evolved, the condition has been refined and it will keep progressing more and more, up to the required level. This evolution is taking place slowly; everything is foreseen and set up in advance.

"Pursue your process since you belong to the chosen ones who understood the underlying rationale and how they must lead their life, here below.

"You made choices which require another pace of life, another way of organising it, to give its true place to the major aspiration of the soul, to drink from the divine source.

"Be blessed in the pursuit of this noble goal."
