Whispers from The Brighter World

A Fourth Revelation

Friday, April 27, 2001 - 8:00 a.m.

The true dimension of some beings is not revealed to the world. The aim of their incarnation is not to be idolised. Each of these Saints has a specific mission, which he accomplishes as planned. Thus was the great Ramakrishna who was important at one time in your life.

"Men's assessment on that aspect is not quite right and it is better that way. Some missioned people would be constrained in the achievement of their work if they were recognised. Many go unnoticed. There are very many examples in history. Let your heart be reassured, they have enlightened the world in their own way, in silence and without publicity, while giving infinite love to humanity.

"Although their actions are lost in the memory of mankind, they are engraved forever in the memory of time.

"They maintained the flame which enlightens the world; they made it progress and, even if the results are not very clear, a big step has been taken towards the awakening of consciousness.

"Many beings have reached levels which have freed them from their chains.

"Thus, very slowly, a new era is in the making. It will appear when the time comes. A big step will be taken then for humanity, which will radically change the course of its evolution – the goal to be reached.

"All will be fulfilled, according to God's plans."
