Whispers from The Brighter World
A Third Revelation

Saturday, May 19, 2001 - 8:00 a.m.

Yes, a new race is being born. It is strong and it will not let itself be corrupted. It will need a lot of time to impose itself before the genetic mutation is completed. This will take place by degrees, at its own pace, before a new mankind really appears all over the surface of the Earth. It is enormous work, but it will be achieved as foreseen. We already have some of these beings in the Mission; they are tomorrow's officers-in-charge. These indigo or blue children, as you call them, not only will have a higher intellect which they will use for the good of man, but they will also be characterised by a very broad spiritual openness. They will mark future times in a way that you cannot imagine. This poor planet is the prey of completely mad beings satisfying their need for power and domination. The lure of gain makes them sacrifice the most elementary laws of respect for the created world. They take irrational risks, knowing what they are exposing the world to. Do they believe they are immortal? They are ransacking, poisoning, destroying the ecosystems, and the common run of people does not know all of it – fortunately, for their peace of mind. While undergoing the disastrous effects of errors mainly accumulated over the last century, [people in] this transitional period can find consolation in imagining these future times when this poor Earth will be able to lick its wounds caused by men and cataclysms generated by their errors."
