Whispers from The Brighter World
A Third Revelation

Saturday, May 19, 2001 - 10:00 a.m.

The new race we've just mentioned will change the world. It is an unquestionable fact, but you also, in your own way, can act to prepare this future where men will stand together, where torture, terror and hunger will be banished.

"You can imagine this world; pray, help your brother, and spend your life meeting with others rather than withdrawing into yourselves and dwelling on your small problems. Solidarity exists; it is developing; minds are opening out and becoming aware of poverty and suffering. And even if all these efforts were still insufficient, they are very important. Make sure that your sadhana is also fruitful in this aspect. You are not advancing alone, your brother is expecting you to help him even in this area – spirituality – which can transform his life, give it meaning, and make him foresee other prospects which he didn't have in mind [before]. This richness is within his reach. The golden age will not happen without it, it is its mainspring and primary inspiration. The world is moving; a purifying movement is in the making. Mankind must awake and act on all levels according to their competencies, their personality and their own requirements. Today's man has a role to play, the importance of which he cannot imagine. Each of his acts is a pawn being moved on the big board of evolution. Make sure that its path is divinely inspired."
