Whispers from The Brighter World
A Third Revelation

Monday, May 21, 2001 - 8:00 a.m.

Be confident. Life does not only hold nasty surprises. It sometimes takes unexpected turns that embellish some of its days. You see that people of goodwill come towards you; you are not completely alone. We see to it, my child. We would like to see you better surrounded, but that is how it is for the moment.

"Moreover, you can see how your painful period is productive. We came back to a topic that has already been mentioned for a long time – the future of the planet – by giving other specific details. We are preparing your minds and are gradually bringing them to a special knowledge emanating from the depths of the human being. This knowledge cannot be inculcated either at a university or in any highly specialised school. It flows in you and filters through like a beneficial stream. You receive it in your heart, which is enriched with invaluable silt. Your mind rises without you even realising it. The least grain of truth benefits you; it shapes your universe, a new world that replaces in you all your old constructions, which were generally created by men who believed they were in possession of knowledge. Then comes the time for personal discoveries, inspired ones, coming from other sources more in tune with true life – that which does not die out, but which endures indefinitely, well beyond this world: the most highly precious one."
