Whispers from The Brighter World
A Third Revelation

*Friday, June 8, 2001 - 8:00 a.m.*

*A right way [always] gains ground, even when it reaches zones of turbulences, like those currently prevailing in some countries such as France. What is planned and decided by divine law ends up prevailing in spite of everything. Our Mission is expanding in the world, not only by the grace of the Almighty, but also – this must be said – by the devotion and the courage of our representatives in all the countries: these prefects who spare no effort.*

*"There is a thirst for spirituality in the hearts which – as far as some hearts are concerned – cannot be quenched any more in long-recognised religions. This new era, dawning on the horizon, yields a completely different aspiration towards a profound inner transformation. This call is indefinable among the majority of these beings who request, but it is very powerful and can be satisfied in a way like ours or in other similar ones that are deemed suitable for them. We do not claim we can answer the call of all these souls; each one finds the Master reserved for them, at the precise time of their evolution.*

*"For these particular beings, a fruitful path can then start [on which they are] carried by the love and attention of him who takes care of their heart."*
