Whispers from The Brighter World

A Third Revelation

Tuesday, June 26, 2001 - 8:00 a.m.

Don't worry; you are doing what you came for. It is true that the spiritual nature of a being is different from his physical nature; these two natures live – shall we say – separate lives, even though they may happen to interfere with each other. Your spiritual bodies are immersed in another type of energy, another light, which your senses cannot perceive, as they are so limited by the grossness of Earthly vibrations. These are desired limitations necessary to your work here below. The spiritual work refines you; it is like a lamp that lights your way and alleviates your burden.

"The teaching you choose to accompany this work is decisive; it corresponds to your evolution. If your choice is good, it saves you invaluable time.

"Your stay on Earth can be compared to a pilgrimage where the way being used is of the highest importance, taking into account its length and the many pitfalls punctuating it. Your spiritual nature urges you – as far as it can – to take the right direction, but man often remains deaf to its injunctions, thus missing the main thing.

"May you waste no more time and open your eyes upon the reality of your lives."
