Whispers from The Brighter World
A Third Revelation

Saturday, July 7, 2001 - 7:00 a.m.

Life is a permanent struggle, each cell in the body lives its own life until this life withdraws – to continue elsewhere – and matter is transformed to enter another vibratory cycle. Spiritual life lies at a different level, completely disconnected from this process. Each life of the physical body is part and parcel of a karmic line. It is an episode with regard to the multitude of incarnations the spiritual entity will have to undergo by way of final examination. You should not feel disturbed by this way of defining life's evolution. To evolve, the spirit must go through all these cycles, which comprise many incarnations in this form on Earth, just to mention these ones. Let us not go any further; everything in its own time. You are trying to do what you came for here below and this is no easy task.

"This stay on Earth raises many questions in you: who are we, where are we going? Very little information is given to you – and things are better this way – you cannot comprehend everything. The secrets of creation must remain as humans consider them. A time will come when they will reach other levels of consciousness. The veil will be raised and knowledge will be accessible to them."
