Whispers from The Brighter World
A Third Revelation

Tuesday, July 17, 2001 - 8:00 a.m.

Don't worry about this issue; these messages will touch hearts, much more than you can imagine. With time, they will make their way and will reach their goal, which is to help our brothers to understand the subtleties of a spiritual way. This simple language will put them within their reach, much more than purportedly erudite comments, which they would quickly find boring. Books of that kind are very many; they brought pleasure to their authors and will suit some people likely to follow them in complicated twists and turns. That is not our objective. The truth is simple; it does not burden itself with convolutions that are disconcerting for most of the searchers.

"In this area, they want their hearts to be touched, their souls also, which must be moved when reading a text that must leave an impression on them going far beyond a simple reading. By feeding hearts, rather than the intellect, we go to the most important thing. The message may go through or not, depending on the expectation of the profound being, which, if it is ready to receive it, will be able to transcend it. If it is well received, it will be able to make its way and to contribute to the development of the soul."
