Whispers from The Brighter World

A Third Revelation

Thursday, July 19, 2001 - 8:00 a.m.

The connection between my son and you is established at a level which enables you to feel its effects. All these nuances are very complex and not easy to define at the human level where capabilities of comprehension are limited. It is most important to know that there is a life parallel to this one; its field of action is very wide among certain beings and cannot be controlled by them, as they are incarnate.

"The mysteries of life are great. Some humans would like to explain everything, to classify everything with their own criteria of analysis, yet they are away from reality. Every era has experienced its extremes in all areas. Human error must be experienced to the end, so that finally an acceptable form of truth is restored. This is how it has always been. Voices protesting against some extremes or glaring mistakes, have sometimes paid dearly for their audacity. This form of courage is very commendable; it fosters the progress of human knowledge, which is still, as we said already, very limited. The evolution on Earth takes place slowly and within a pre-established framework."
