Whispers from The Brighter World
A Third Revelation

Saturday, July 28, 2001 - 8:00 a.m.

Humans are moving with blindfolds on their eyes. With some of them, the blindfold is raised sometimes, thus enabling them to enlighten their fellow men.

"Life on Earth has reached a stage where solutions must be found, so that man can change in every respect. Humanity is in the grip of negative forces that cannot entirely be counterbalanced by the best aspects. The plague of the world is persistent; our efforts to transform it bear fruit, but evolution is slow and will require other factors, in accordance with our action. In many respects, you belong to this plan. Being an aspirant to higher spirituality, you are a positive element.

"The harvest, which is currently being prepared in the world, represents a hope for the future; this resilient and productive crop will expand in a satisfactory way. Every chance will be granted to humanity to face up to things and develop under the best auspices. May this new world see the light, generated by beings having reached higher levels of consciousness!"
