Are you satisfied with the last section of the previous message, the way it has been improved? Words are important; your ears are sensitive to some kind of music. "Your spiritual condition has changed; your level of knowledge likewise. A regular reading of these messages gave you a more subtle perception of spirituality.

"Bit by bit, we make sure that your comprehension widens, which allows us to adopt a different approach adjusted to your current condition.

"We take into account your progress and the stages you have gone past as an aspirant to spirituality. By adapting to your progress, we foster in you heart knowledge and an esoteric perception accessible to those who follow us faithfully."
