Whispers from The Brighter World
A Third Revelation

Wednesday, August 8, 2001 - 8:00 a.m.

Love is rich nourishment that heightens life. The whole being vibrates when its power manifests itself in it, and it [the power] will shake the world when the time comes. Its vibration is special. It escapes the sharpest analyses.

"The very powerful forces animating the universe are not detectable by men.

"What can they understand of the divine laws governing Creation? They guess, they decide and make pronouncements, without taking into account significant elements concealed by the veil of illusion governing this planet. Your senses mislead you permanently; some among you have experienced this at their own expense, [while] enlightened by a suitable esoteric teaching.

"The human being tries to understand how he functions and how creation is set up; he is only a blip in these complicated machineries who thinks he knows where he comes from and where he is headed for. His views are derisory, limited to his extreme smallness and moving with respect to his complex of superiority. He believes he is a giant ruling the world; he is only an illusion, blown away by the wind."
