Whispers from The Brighter World
A Third Revelation

Thursday, August 9, 2001 - 8:00 a.m.

As you can notice once again, the only possible and effective way to find serenity is to plunge inside yourself. In this preserved place, the turbulences of life are forgotten. Man of the present time, lost in the turmoil of an insane materialism, lets himself be influenced, losing his bearings. Some resort to drugs of all sorts to find [mental] stability. Chemistry by itself cannot solve everything; that would be too simple. The real cure is not that one. Serenity can be obtained only by plunging into the deepest of oneself. When this place is well known, explored and frequented assiduously, it does provide peace. It is a blessing for man to have this sure refuge and to be able to find in there the strength to face life, when it is difficult to stand. The best is in you; there lies your real life, protected and unique, since it [real life] is immortal. Nothing can affect its real essence here below. Don't lose sight of this truth, you are on a journey and anchored temporarily to a land of refuge, which is a summary of a moment of your eternity. It is up to you to make it bearable and constructive."
