Whispers from The Brighter World
A Third Revelation

Friday, September 14, 2001 - 10:00 a.m.

In the current conflict, France has become a strategic point. The leaders of this country will need to exhibit a great deal of tact to cope with the situation. The Arab world is boiling; minds are furious and the worst is to be feared if the leaders of the conflict do not bring the situation under control. In this case there is a high risk that things may get out of hand. Pray for these people, frustrated for such a long time and who have gone too far. When hatred reaches such a paroxysm, nothing good can be expected. May wise people from their religious movement urge them to be cautious. So, people will never stop harming one another! Wisdom is not part of human nature. For centuries the same genocides have been witnessed, crueller and crueller wars that in fact do not resolve any conflict in an equitable way. All is always to be started all over again; only higher wisdom will be able to put an end to this fatal cycle devoid of true consciousness. May hatred remain absent from your hearts, whatever may happen."
