Whispers from The Brighter World
A Third Revelation

Sunday, September 16, 2001 - 10:00 a.m.

Your gifts are innate and we trained you especially for this work. We have our reasons that justify this choice. By giving you our confidence we had no doubt about the result. Your heart was completely ready to be fully committed and serve us with all the ardour it is capable of. These messages, when they are known on a larger scale, will mark a turning point in our Mission. They will shed a different light on our teaching.

"Our way is a way of love; this is how it must assert itself with time. Will it be well received by the men of tomorrow? We are working towards that. Only love will be able to save the world; the devastating effects of hatred are known only too well.

"A complete mutation is in the making. It will be necessary for horror to be exhausted before the mutation is eventually completed.

"Our Mission contributes to preparing the future; it is making its way in the heart of men, in view of future times. May the beauty of the souls and it alone, like a light veil, cover the entire Earth and transform it."
