Whispers from The Brighter World
A Third Revelation

You are doing what you came on this Earth for. This work represents a significant part of your life. You are involved in many respects in these messages, which makes you feel uncomfortable since they are known, but this aspect puts them in a dynamic process which is not negligible, believe me.

"Each reader can recognise himself in these lines. The purpose of our comments is to awaken in them the best of their personality, to make them become aware of what is essential for their spiritual development. When a soul is ready to open up to a higher life, it is placed under the conditions conducive to this blooming. It is given the opportunities to find the most favourable food meeting its needs.

"Our method, in terms of its implementation, is both simple and very elaborate and it is self-sufficient.

"Our bookish teaching and these messages serve a different purpose: they allow, in addition to the core work, to draw the attention of our aspirants to a certain way of being and organising their lives around this method. Thus, while trying to grasp well all the aspects of the spiritual process, to sensitise them and help them, we offer as many elements as possible."
