Whispers from The Brighter World
A Third Revelation

Tuesday, September 18, 2001 - 8:00 a.m.

When you say you are playing second fiddle, this is inaccurate. Your role goes beyond and you know it very well. Why are you surprised that we are turning our attention to this special day for you; are we not allowed to express our love?

"A birthday is felt by humans in various ways; it is nevertheless the celebration of the starting point of an incarnation, each one of which has its own importance. It opens the door of an unknown place that remains to be discovered.

"How will this visit be organised? It is up to each one to organise it according to the planned path and if possible under the guidance of the best guide. Life remains full of mysteries to man; he seeks to decode the signs which punctuate his path.

"He has his own interpretation of facts, but that is not necessarily correct. He should rather rely on God and accept his destiny. What else can he do that would be more constructive? Try to unite more and more with this higher force that shows him the way. If it is about a way of love, he cannot be mistaken. He is engaged in a liberating and noble process; there is every hope for him."
