Whispers from The Brighter World
A Third Revelation

Tuesday, September 25, 2001 - 8:00 a.m.

A spark of love in a heart moves us, all the more so for a perpetual song which rises towards us, without waning with time! Love will save the world. This assertion can seem ridiculous in these troubled and worrying periods that mark history. It will nevertheless be the only recourse of future times when the face of the world manifests itself in a new light and is ready to open up to this reality. Today's men come and go, busy and dependent on a completely inhuman way of life in a frightening world – if one takes the trouble to observe it.

"All values will have to be re-examined and adapted to the new age. After the time of terror, a new spirit will be established, initiated by higher beings coming to lend their support to humans. This golden age will not happen overnight, but it is a real hope for this Earth. Wish for it in your hearts. Even if you yourself do not witness these times, your remote descendants will experience them and benefit from their advent. Continue your personal work with fervour; you thus prepare yourself for a more delightful future."
