Whispers from The Brighter World
A Third Revelation

Friday, September 28, 2001 - 8:00 a.m.

Desperation leads the heart to be united with the Creator. It is in the hardest moments of their existence that, sometimes, the least willing humans turn to Him. Tests reveal their true personalities. In this respect, no life is spared; sooner or later one has to face adversity, it is in the order of things. When the true meaning of life has been understood, a great stride has been taken; following a spiritual way is another stride, a decisive one since it is redeeming. There comes a time when the aspiration of the soul to rise becomes very strong. It urges the candidate to act, to intensify his process and to be united more and more inside himself with the divinity. This is the objective of the process: to interiorise oneself, vibrate more, feel in one's heart the palpitation of a life which does not belong to this world and which is reinforced a little more each day – that is the purpose of this work. The goal is to be united completely with God. Do not lose sight of it; you have already come a long way in this, it will culminate in the ultimate reward."
