Whispers from The Brighter World
A Third Revelation

Only perseverance enables you to succeed in your undertakings. It is the tenacity of your efforts that makes of you what you are in all manifestations of life. You may think that these remarks are commonplace, and yet your success hinges on this quality of yours. Since your cries at birth, your existence has constantly required effort. Any life, in the entire creation, entails a fierce struggle to face up to the many difficulties associated with it.

"Your sadhana itself requires a great amount of perseverance. You engaged in this process, without any idea of how important it would become, in terms of setting a guiding line to the organisation of your daily schedule. By devoting a portion of your time each day, you have placed yourselves on the pathway that, while advancing in time, will open wide the doors of the sacred temple to you.

"This success calls for a specific space of time to be devoted to it in the course of the day. With the passing years, this ritual will become a real need, which will be part and parcel of your priorities. We wish you the success which corresponds to your aspirations, since we are helping you accordingly."
