Whispers from The Brighter World
A Third Revelation

*Friday, October 12, 2001 - 8:00 a.m.*

*Man is advancing in the darkness of a humanity which is trying to find its way. The progress is very slow; we are helping it out but the struggle is hard. So many taboos should be overcome; miasmas that make it stagnate should be removed, as well as the veil concealing the truth from it; but the time has not yet come. Man has yet to go a long way and rise above his current condition.*

*"The veil of illusion is peculiar to this planet, which will have to mutate in its totality to emerge victorious from this ceaseless combat. There are chosen ones who managed to find their way; that which lets them glimpse another reality and places them, under the current circumstances, in an attitude of waiting and surrendering to the inevitable. Their faith makes them grow in strength and stature and removes their blinkers of ignorance. Men's hearts must open to the sublime vibration, which will lead them into a new era, perceptible to the most advanced ones and considered as a lure by those lagging behind. Each one will reap the fruits falling to them equitably, as per divinely enacted laws."*
