Whispers from The Brighter World
A Fourth Revelation

Monday, October 22, 2001 - 10:00 a.m.

In some circumstances, humans hear what they want to hear. We let them follow through on their idea, and in time they can realise by themselves that they were mistaken, having deluded themselves. Wisdom is not innate in man; he acquires it with time, if he manages to benefit from his unfortunate experiences. This is what parents let their children do, so that they can learn the true meaning of life.

"Our particular blessings are with this ashram today. These dedicated places are points of light in the world, where they are needed more than ever. Faith and love emanating from hearts are a stabilising vibration for men. No matter what happens, they continue to live, to go on their way within the framework of their own destiny. Only the light they have in their heart can truly help them. It is there, present in the hardest moments, to guide them, giving them courage to continue.

"We are working for this to come true so that all people on this Earth can feel themselves carried by this unique force – unique because it is divine."
