Whispers from The Brighter World

Saturday, March 20, 1999 – 9:00 a.m.

(Meditation in Augerans.)

The Medium: Babuji, I was waiting for this moment to unite with Master and I am unable to meditate.

You are better at writing, so write! Reassure Anne-Marie, she is not losing anything by remaining here. That is how it had to be. Thank her; all is counted when one's work is done with the heart. Proceed well as I told you for the messages; do not let yourself be persuaded to relent. A day will come when there will be nothing more to fear. You know that humans are not reliable, even the best ones. The arrival of my son is a success; it has yielded such enthusiasm. We are happy; even he did not expect this result. The work is advancing well; he is preparing a beautiful celebration that will be important for the energies of the Earth, even if you cannot understand this and the results are not visible. What matters is that it is so.

Our contact has opened the channel. You can meditate now. Be united well with us for the end of this seminar.
