Whispers from The Brighter World
A Fourth Revelation

Wednesday, November 7, 2001 - 8:00 a.m.

We will not rush you while you are going through this trying period. You should know that we are with you; we surround you as well as possible in your loneliness.

"We will come back later to large subjects about the construction of the universe that intrigue you. The sacred geometry is not easy to understand, but it is the key to everything. This construction is built on solid foundations where there is no room for whim.

"As an extension of this science, there is what humans refer to as the irrational, or paranormal phenomena and all that is beyond their understanding. It will still take much time for all these mysteries to be perceived by the common run of people. You who have gone past the stage of doubt, be it only with contacts from the beyond, you have already taken a great stride. A pathway is open which you can follow in our wake. These exchanges are quite normal between created worlds, which are a result of divine power and which vibrate with the same energy."
