Whispers from The Brighter World
A Fourth Revelation

Without perseverance and assiduity on your part, whatever the circumstances, your gifts would not be enough. That is the way it goes for each human being, however gifted they may be in terms of their characteristics. We have already come a long way together; we are happy being able to express ourselves to you in this way. In times to come, the evolution of humanity will further facilitate this kind of contact.

"The human race will undergo a deep mutation, which will give man extrasensory perceptions.

"We are not there yet. While trying to illuminate your way, we are preparing these future times. Prepare them, you also, in your hearts. You all are contributing to these great changes, since you have understood where the important aspect in this life lies and the major reasons for the programme of each one of them.

"Each life contributes to the great divine plan. When it is highly inspired, it aligns itself with the guidelines meant to prepare it for the outcome of a vast programme.

"Let yourself be led by this powerful force, which transforms your hearts and fosters the plans designed by the higher forces."
