Whispers from The Brighter World
A Fourth Revelation

Wednesday, November 28, 2001 - 9:30 a.m.

You are giving your best to serve to us. What more can we ask you now?

"The holy beings shown in this [television] report, participating in one of the biggest festivals in this country, arrived at such a point of evolution that this life of asceticism became natural for them. To live far away from the world in a desireless state in line with their higher spirituality sets an example for millions of Hindus.

"India is one of the oldest countries in the world. This Earth carries a very great number of realised souls that illuminate the world. Thus is the destiny of this country: to counterbalance new countries that are highly industrialised and living in great moral distress, in spite of their elevated standard of living – opposite to that of India. The richness of this country is elsewhere; it provides the world with what it lacks: a true spirituality.

"It is like a beacon guiding the souls who search and are hungry for [true spirituality] because they are cut off from the essence.

"This country is unique in the expression of faith; it can be expressed with the greatest freedom as religions are not dictatorial.

"India is a land chosen for the great illuminated souls, and will keep its status in the future by becoming a high place of refuge for the multitude, after great upheavals."
