Whispers from The Brighter World
A Fourth Revelation

Sunday, December 2, 2001 - 8:00 a.m.

ood and evil are only as one; for the current cycle, they form a whole inherent in this planet. We act in the sphere which is ours, converting the pervading energy. This work is ceaseless; everything is always to be started all over again. A balance must be maintained; it is essential to life. The evolutionary cycles are very long on this Earth and the transformations cannot be perceived with men's eyes. They are only negligible elements in a system of great complexity.

"Man has acquired dangerous powers detrimental to the balance of this world. All will have to be thoroughly reviewed, so that this planet continues its trajectory according to the foreseen plans. The irresponsibility of man's acts could jeopardise everything. He goes off his own evolutionary trajectory; he handles forces which he cannot control and which will end up destroying him.

"We can only slow down this process. Man is stubborn and ambitious; he wants, at all costs, to leave a mark of what he believes is his genius, whereas he is the prey of negative forces marking humanity with the tragic seal of destruction."
