Whispers from The Brighter World
A Fourth Revelation

Wednesday, December 5, 2001 - 8:00 a.m.

The Medium: "Thank you, Babuji, for enlightening us on human weaknesses and showing us the way that enables us to better cope with adversity."

y child, our current action and that of the Masters of the past have always been aimed at helping men grapple with the difficulties related to their incarnation.

"Life on this Earth is not easy to lead. Serenity is acquired from inside, by disregarding any kind of ordeal that can emerge during one's existence. Man must find the way to wisdom by making his way through the ordeals that punctuate his life. We unceasingly revert to the same stumbling block, insofar as no life is saved from what characterises humanity: sufferings in their various aspects.

"Would man worry about the aspirations of his soul, if life here below was taking place in the garden of delights? Surely not. He is not inclined, by nature, to spontaneous sacrifices. The rules governing life on Earth are in conformity with necessity. They are established by a higher power that knows what it is aiming for. Man's limitations hide the great truths from him."
