Whispers from The Brighter World
A Fourth Revelation

Wednesday, December 5, 2001 - 10:00 a.m.

Hide not your light under a bushel. This great truth stated by our brother Jesus is valid since the most ancient times, and will remain justified. Otherwise, what would be the purpose of it?

"The soul seeks the light: this is its vocation. It always ends up finding it and it clings to the least sign showing it the way. When the moment has come for it to advance, nothing can stop it. The call is felt and manifests itself in various ways.

"Which way to choose? It is offered multiple possibilities. It will have to conduct its own experiments and find what is best suited to it. Sometimes one needs much time and many incarnations to find the Master intended for him. Humanly, the soul undergoes pressure from less advanced beings, which slow it down in its aspirations. Sooner or later, it will manage to extricate itself from them and follow the way reserved for it. It must follow its way and illuminate, in its turn, those close ones less evolved, who will benefit from its progress.

"Thus, this process accelerates with time, with a view to the construction of a better world."
