Whispers from The Brighter World
A Fourth Revelation

Do not start again having feelings of self-doubt; we cannot accept this any more. The sizeable number of messages that you wrote, as well as their contents, must shield you from this kind of reaction.

"As for the reactions of the readers, all will not be supportive of the principle, but if the readers actually want to read attentively, they will not be able to remain indifferent.

"Nobody in this world can have unanimous support; the human being's reactions are quite unpredictable.

"It is all a question of understanding; open-mindedness cannot be acquired on request. It is the fruit of a personal work, and varies according to the individual.

"Boredom is not likely to be established on this Earth: the uniformity of thought is nowhere near happening.

"These messages will contribute to opening people's minds to knowledge; they do not target the intellect but a secret part of the being, which is making its way beyond time, at its own pace, and whose limits reside only inside itself.

"Man is a latent world; he displays all relevant aspects. No one is the only one of his kind. Humanity is a whole, more coherent than it seems. Differences are only apparent. Life is as one, as a whole, and a great unity enables it to exist."
