Whispers from The Brighter World
A Fourth Revelation

Sunday, December 16, 2001 - 9:50 a.m.

You see, there is no cause for fears. We can, this once, adapt ourselves to the circumstances and break with our habit. Time is an Earthly concept; you are recommended to conform to it, as it regulates your life. We are not 'bogey-men'. Time is important insofar as it is the basis of your development and gives you points of reference. What would you do without it? Your physical body has requirements which must be met, at the risk of it costing your health.

"This body must be respected; it is a precious tool, useful for what you have to do, being incarnate. Treat it gently; you have to have a well-regulated life. This balance contributes to your spiritual development. Do everything in your capacity for the true being residing in you to blossom – that which passes through a body of flesh and leads it to more clement places once the journey is successfully completed.

"If you are interested by these writings, it means that you have made some progress and that there is no limit to what you can hope for."
