Whispers from The Brighter World
A Fourth Revelation

Sunday, December 23, 2001 - 10:00 a.m.

This year is ending in consternation for clear-headed beings that think of the world misery and aspire to interiorise themselves rather than getting drunk with extravagant festivals and expenditure. They think of all those who suffer from persecution, hunger, and all possible evils.

"We expect of our aspirants moderation in all its forms, and a fervent and heartfelt call for peace in the world, which it needs most. The Mission as a whole represents a powerful lifeblood contributing to the construction of a future world, a better one, turned towards the most important thing, namely spirituality. It alone will be able to save men from their sad fate.

"A collective awareness must occur so that humanity can see a semblance of reason.

"Utter anarchy reigns on this planet and can only lead it on the road to ruin, unless it is quelled.

"The higher powers will have to employ large-scale means to restore order in this world that is in sheer madness.

"Be very conscious of the gravity of the situation and call from the bottom of your heart for the salvation of humanity."
