Whispers from The Brighter World
A Fourth Revelation

Wednesday, December 26, 2001 - 10:00 a.m.

Consider your brothers and sisters as searching souls not limited to the vagaries of their human tendencies. They want to progress and feel the pressing need to be united with the Divine. They must fight against their own nature, which can dissuade them from pursuing this kind of process. Common sense and determination generally push them and their heart is delighted by these good states of mind. It is not easy to be rigorous in one's efforts at all times. Life requires constant efforts and this spiritual process must be accommodated in a schedule that is sometimes busy. It is commendable, in this case, to make room for one's abhyas. This steadfastness will be rewarded. Perseverance is essential in everything; without it, nothing sound can be built.

"We offer a method to you; it is up to you to appreciate it and ensure that it bears fruit. We are delighted to see your progress. You cannot assess it, and yet, an edifice is being built inside yourself, the foundations of which we are consolidating. You are working with patience, while adding, each day, a new stone to the masterpiece which will result from it."
