Whispers from The Brighter World
A Third Revelation

Monday, February 4, 2002 - 10:00 a.m.

It sometimes happens that our comments shake you up a little when you receive us. Then, in hindsight, you recognise the validity thereof. It is normal that these kinds of reactions occur, you are well placed for that. The readers of these messages will also react in their own way. In our remarks we do not go beyond what is possible. You all are conditioned by ways of thinking and behaving which are by and large the same. We adapt ourselves to a frame of mind reflected in the beginning of this new era, and which will influence humanity in a profound and durable way.

"A real openness must occur on taboo subjects, which are maintained by religious currents distorting a disturbing truth. We are all working here so that men of this time can finally see that the book of knowledge can be opened in front of them according to their aspiration. Will this century be finally called 'the century of the Enlightenment'? That's our wish. Let us work together; let your minds serve us accordingly. You who stand at a level of comprehension above average, make sure that you participate in the preparation of future times."
